Summary

Self-taught Web Developer currently focused on front end aspect of Web development. Experienced and equipped with core skills required in the development cycle of static and dynamic web projects. I am very productive in work environments that enables me to apply the skills and knowledge I have and also challenges me and helps me to learn more and grow in other related aspects of my field.

Experience

- Create and manage an E-commerce website using WordPress.
- Design and develop responsive websites using industry-standard web development technologies.
- Solve web design projects on online communities such as "devchallenges.io"
- Create and develop various JavaScript projects with fundamental JavaScript concepts which includes: To-do list app, Currency-rates Converter App, Temperature Converter App, Budget App, Quiz App, Gallery Carousels, Simple Guess Game and so on.

Education

Currently studying for BSc. Computer Science, Federal University Oye, Ekiti, Nigeria.

Certifications

I have received "Udemy" certificates on some notable and robust courses which include:

- WordPress & WooCommerce BY Fatah Gabriel
- The Modern Flexbox, Grid, SASS & Animations BY Muslim Helalee
- 10 Mega responsive Website with HTML, CSS and JavaScript BY CodeAndCreate
- Build a Modern Website from scratch with HTML & CSS BY Samvel Pogosov

Some other courses am still working hard on so as to extend my knowledge and skills includes:

- The Modern JavaScript Bootcamp BY Colt Steele and Stephen Grider
- JavaScript Developer Bootcamp – Beginner to Expert BY Muslim Helalee
